

Thomas Telford Multi Academy Trust

Children's Emotional Wellbeing Policy

Redhill Primary Academy and Thomas Telford Primary Free Schools

Signed

Mrs Raj Samra
Chair of Governors
September 2026

The development of this policy was a collaborative process. It was led by Future in Mind in consultation with staff, pupils, parents and professionals involved in mental health and wellbeing in Telford and Wrekin. Future in Mind is commissioned in partnership with Telford and Wrekin Council and Telford and Wrekin Clinical Commissioning Group. Because of its local context and the schools' direct link with the Future in Mind project, we have chosen to adopt it, personalising the sections specific to Redhill Primary Academy and Thomas Telford Primary Free Schools.

When we talk about the mental health of our children, we use the definition by the World Health Organisation.

Mental health is a state of well-being in which every individual realises his or her own potential, can cope with the normal stresses of life, can work productively and fruitfully, and is able to make a contribution to her or his community. (World Health Organisation)

Policy Statement

At the schools, we are committed to supporting the emotional health and wellbeing of our pupils and staff. Our supportive and caring ethos are part of our culture, and we believe that supporting emotional health and wellbeing is the responsibility of every adult working in schools.

At the schools, we know that everyone experiences life challenges that can make us vulnerable and at times, anyone may need additional support with their emotional wellbeing and mental health. We take the view that positive mental health is everybody's business and that we all have a role to play.

In addition to promoting positive mental health, we aim to recognise and respond to mental ill health. By developing and implementing practical, relevant and effective mental health provision, policies and procedures we can promote a safe and stable environment for children affected both directly, and indirectly by mental ill health.

At schools we:

- teach and support children to understand their emotions and feelings as we grow and change.
- ensure children feel comfortable about sharing concerns or worries about their emotional wellbeing and mental health.
- teach children that it is okay not to be okay.
- Educate children about healthy relationships and support them to form and maintain relationships appropriate for their age and stage in life.
- promote the importance of good self-esteem and ensure children know that they have equal value to anyone else.
- encourage children to be confident in themselves and have a sense of pride in being who they are.
- support and develop children to develop emotional resilience and to manage setbacks in their lives.

We promote a positive mental health culture by:

- Talking openly about our emotions and mental health, so that we can begin to remove the stigma associated with it.
- Modelling healthy relationships with colleagues and actively listening to children so they know that they will be supported if requested.
- Promoting our schools' values and ethos and encouraging a sense of belonging.
- Promoting pupil voice and opportunities to participate in decision-making and democracy.

- Celebrating academic and non-academic achievements in life.
- Providing opportunities to develop a sense of worth through taking responsibility for themselves and others, including participating in student voice forums and children safeguarding boards.
- Providing opportunities to reflect on the choices they make and the consequences of these.
- Supporting children to access the right support at the right time.

We pursue our aims through:

- A universal, whole school approach to supporting the emotional health and wellbeing of all children. This includes a taught curriculum for all about mental health, through the statutory health education curriculum.
- Supporting children to ask for help when dealing with a mental health issue and to see this as a sign of strength.
- Teaching through health education the need to live a healthy lifestyle to keep our minds balanced.
- Spreading awareness about mental health to reduce stigma.
- Offering additional high quality in schools support for pupils who are experiencing issues in their own lives that affect their wellbeing, including bereavement.
- Ensuring access to specialised, targeted approaches aimed at pupils with more complex or long-term mental health needs.

Scope of this policy

This policy should be read in conjunction with our safeguarding policy, medical policy, behaviour and discipline policy, SEND and inclusion policy, PSHE/Health Education curriculum, and bereavement policy in cases where children's mental health needs overlap with these.

Emotional Health and Wellbeing lead members of staff

Whilst all staff have a responsibility to promote the mental health of students, staff with a specific, relevant remit include:

- Designated child protection/safeguarding leads.
- **Denise Rock** is the Schools's Emotional Health and Wellbeing Lead, she attends termly continuing professional development led by Future in Mind Telford & Wrekin – launched in 2016 by The Severn Teaching Schools Alliance, in partnership with Telford and Wrekin Council and Telford and Wrekin Clinical Commissioning Group, to develop such provision in schools. In turn, Denise Rock disseminates much of this training back at schools to both teachers and teaching assistants.
- **Faye Bailey and Denise Rock** are both qualified Youth Mental Health First Aiders, disseminating best practice and developing other staff members in supporting children with their mental health.
- **Denise Rock** is a qualified Staff Mental Health First Aider facilitating provision for staff members.
- **Faye Bailey** is qualified as a "Grief Recovery Specialists" certified by the Grief Recovery Institute, assisting pupils who need additional support when bereaved.
- **Faye Bailey and Denise Rock** are qualified ELSAs – Emotional Literacy Support Assistants. Both staff also receive termly ELSA supervision, run by Telford & Wrekin's Educational Psychology service. This enables children who need support around discussing their emotions to have 1:1 session with our ELSAs.

- Denise Rock also attends termly E2O meetings - Emotional Wellbeing to Outcomes, where a cross section of practitioners involved in the emotional wellbeing of young people in Telford come together to share good practice.

The skills, knowledge and understanding needed by our children to keep themselves mentally healthy and safe are included as part of our developmental PSHE curriculum. The specific content of lessons is determined by the needs of the pupils within the year group and across the schools. The teaching about mental health and emotional wellbeing is linked directly to the statutory guidance for Health Education (September 2020).

Raising concerns about mental ill health

Any member of staff who is concerned about the mental health or wellbeing of a pupil should speak to a DSL first, who will discuss the case with the lead in the first instance. If there is a concern that the pupil is in danger of immediate harm, then the normal child protection/safeguarding procedures should be followed with an immediate referral to the designated safeguarding lead and/or the headteacher. If the pupil presents a medical emergency, then the normal procedures for medical emergencies should be followed, including alerting the first aid staff and contacting the emergency services if necessary.

The referral route for BEE-U (Child and Adolescent Mental Health Service) is via a GP or schools.
<https://camhs.mpft.nhs.uk/bee-u>

Targeted support

At schools we offer support through targeted approaches for individual pupils or groups of pupils which may include:

- Managing feelings resources e.g. worry boxes' and 'worry eaters'
- Emotion Coaching
- The Inner Chimp
- Developing wellbeing and resilience
- Managing emotions resources such as 'the incredible 5-point scale'
- Peer coaching and mentoring
- 4 S's of Attachment – Seen, Safe, Soothed, Secure
- Group Work/Mental health and wellbeing groups, ELSA support groups.
- Therapeutic activities including art, Build to Express, relaxation and mindfulness techniques.
- Therapeutic strategies including Cognitive Behaviour Therapy, Solution Focused Brief Therapy and Motivational Interviewing
- Learning Lenses
- My Creative Schools
- Labyrinth
- Toolbox of Wellbeing
- Social Stories
- Books Beyond Words
- Sleep Champion
- BEAM – Children's Society
- KOOTH (Y6 and older)

The schools will make use of resources to assess and track wellbeing as appropriate including:

- Strengths and Difficulties questionnaire - <https://www.sdqinfo.org/>
- The Boxall Profile – Nurture UK
- Emotional literacy scales – GL Assessment
- Engagement Profile – (2020 Rochford Version)
- Leuven Scale

Signposting

We will ensure that staff, pupils and parents are aware of what support is available within our schools and how to access further appropriate support. Whenever we highlight sources of support, we will increase the chance of child help-seeking by ensuring pupils understand:

- What help is available
- Who it is aimed at
- How to access it
- Why to access it
- What is likely to happen next

Identifying Needs and Warning Signs

When assessing children's mental health, we should consider:

- Attendance
- Punctuality
- Relationships between peers
- Approaches to learning
- Physical indicators
- Negative behaviour patterns
- Family circumstances
- Recent bereavement
- Health indicators
-

Possible warning signs include:

- Physical signs of harm that are repeated or appear non-accidental
- Changes in eating/sleeping habits
- Increased isolation from friends or family, becoming socially withdrawn
- Changes in activity and mood
- Lowering of academic achievement
- Talking or joking about self-harm or suicide
- Children making comments about wanting to die, wishing they were dead
- Abusing drugs or alcohol
- Expressing feelings of failure, uselessness or loss of hope
- Changes in clothing – e.g. long sleeves in warm weather
- Secretive behaviour
- Refusal to take part in PE or getting changed secretly
- Lateness to or absence from schools

- Repeated physical pain or nausea with no evident cause
- An increase in lateness or absenteeism

Managing Disclosures

See safeguarding policy.

Working with other agencies and partners

As part of our targeted provision schools work with other agencies to support children's emotional health and wellbeing including:

- Emotional Health and Wellbeing Public Health Schools Nurse-Sandra Williamson
- Educational Psychology Services
- Behaviour Support Advisory Team
- Paediatricians – if the child is registered
- BEE-U (child and adolescent mental health service)
- Future in Mind Telford
- Counselling services
- Early Help and Support
- Social Care
- KOOTH (Y6 and older)

Working with Parents

Where it is deemed appropriate to inform parents, we need to be sensitive in our approach. Before disclosing it to parents, we should consider the following questions (on a case-by-case basis):

- Can the meeting happen face to face? This is preferable.
- Where should the meeting happen? At schools, at their home or somewhere neutral?
- Who should be present? Consider parents, the child, other members of staff.
- What are the aims of the meeting?

Parents are often very welcoming of support and information from the schools about supporting their child's emotional and mental health. To support parents, we will:

- Be open and honest about mental health and demonstrate a commitment to supporting all children/young people and their families.
- Highlight sources of information and support about common mental health issues on our school's website.
- Ensure that all parents are aware of who to talk to, and how to access this support, if they have concerns about their own child or a friend of their child.
- Involve parents in events that raise awareness of mental health in children and young people.
- Make our mental health policy easily accessible to parents.
- Share ideas about how parents can support positive mental health in their children, through whole school events, information sessions and the schools' website.
- Keep parents informed about the mental health topics children are learning about in PSHE and share ideas for extending and exploring this learning at home.

- Support parents with their own mental health needs by understanding what support is available locally.

Supporting Peers

When a pupil is suffering from mental health issues, it can be a difficult time for their friends. Friends often want to support but do not know how. In the case of self-harm or eating disorders, it is possible that friends may learn unhealthy coping mechanisms from each other. To keep peers safe, we will consider on a case-by-case basis which friends may need additional support. Support will be provided either in one to one or group settings and will be guided by conversations by the child who is experiencing mental ill health and their parents with whom we will discuss:

- What is helpful for friends to know and what they should not be told
- How friends can best support
- Things friends should avoid doing/saying which may inadvertently cause upset
- Warning signs that their friend may see and therefore help by seeking support from trusted adults' help

Additionally, we want to highlight with peers:

- Where and how to access support for themselves
- Safe sources of further information about their friend's condition
- Healthy ways of coping with the difficult emotions they may be feeling

Training for school-based staff

All staff will receive regular training about recognising and responding to mental health issues as part of their regular child protection training to enable them to keep children safe. Mental health Leads attending Future in Mind Telford, receive three full days of CPD each year, along with the resources and slides to cascade their learning to staff and parents.

In addition, schools can access additional support through the Education Psychology Service and behaviour Support Advisory Team.

Mental Health Leads who have attended Future in Mind Telford sessions will have access to the following resources:

- A Toolbox of Wellbeing – strategies to use in the classroom to support at all stages and phases.
- Understanding & Preventing Self-harm in Schools – Tina Rae & Jody Walshe
- The Essential Guide to Cognitive Behaviour Therapy with Children & Young People – Tina Rae & Pandora Giles
